DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has made final findings of scientific misconduct in the following case:

Ruth Lupu, Ph.D., Georgetown University Medical Center: On December 6, 1995, based on an investigation conducted by Georgetown University Medical Center, ORI found that Ruth Lupu, Ph.D., committed scientific misconduct by submitting a false letter of collaboration in an unfunded application to the Public Health Service (PHS). Letters of collaboration are a significant factor in the evaluation of applications.

Dr. Lupu has entered into a Voluntary Exclusion Agreement with ORI in which she has accepted ORI's finding and has agreed to exclude herself voluntarily, for the period beginning December 6, 1995, and ending January 30, 1997, from serving in any advisory capacity to PHS, including but not limited to service on any PHS advisory committee, board, and/or peer review committee, or as a consultant.

In addition, Dr. Lupu has voluntarily agreed to accept the administrative sanctions imposed by Georgetown University Medical Center, which include requirements that:

- (1) a letter of reprimand be issued and retained in her personnel file for two years; and
- (2) her future grant applications, proposals, and other publications be subject to special monitoring and review for two years.

No scientific publications were required to be corrected as part of this Agreement.

Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has made final findings of scientific misconduct in the following case:

Ms. Victoria Santa Cruz, University of Arizona: Based on an investigation conducted by the institution, ORI found that Ms. Victoria Santa Cruz, former Program Coordinator, College of Nursing, University of Arizona, engaged in scientific misconduct by fabricating interview data on a questionnaire intended for use in two studies funded by two Public Health Service (PHS) grants.

Ms. Santa Cruz did not contest the ORI findings or administrative actions, which require that, for a period of three years, any institution that proposes her participation in PHS-supported research must submit a supervisory plan designed to ensure the scientific integrity of her contribution. Ms. Santa Cruz is also prohibited from serving in any advisory capacity to PHS, including but not limited to service on any PHS

advisory committee, board, and/or peer review committee, or as a consultant for a period of three (3) years.

Because the studies involved are ongoing, no publications were affected by the fabricated data, and no clinical treatment has been based on the results of the studies.
